

Nacogdoches ISD can confirm that we have had three incidents this week where students have made statements reflecting an intent to bring a gun to school and harm others. Two remarks were made by Mike Moses Middle School students and the other by a student at Nacogdoches High School. In each instance, the administration responded swiftly by removing the student and contacting law enforcement. The students are being processed and will be removed to Nacogdoches ISD Discipline Alternative Placement Center (DAEP).

Student safety is our first priority at Nacogdoches ISD. We commend the students and staff who immediately came forward with the information and our administration for their response. We continue to encourage dialogue with your children regarding the severity of making such comments or threats and reiterate that all statements will be taken seriously.

Sandra Dowdy
NISD Superintendent of Schools
